

IMED HAMDENE

EMBEDDED SOFTWARE ENGINEERING STUDENT

Dear Recruiting Manager,

I am currently a computer engineering student at ESPRIT Tunis, and I am seeking a six-week internship opportunity starting in early July.

I am particularly interested in embedded, ambient, and mobile systems and software, and I intend to specialize in this area in my studies next year. My education has provided me with strong skills in programming, electronics, and embedded systems.

I would like to apply my knowledge and develop new skills within an innovative and dynamic company. I am convinced that your company, renowned for its expertise in the field of computer engineering, would be an ideal environment to successfully complete my internship project.

I am available to meet with you at your convenience to discuss my application and potential collaboration in more detail. I have attached my resume to this request for more details on my background and experiences.

Thank you in advance for considering my request. I look forward to your response and am available for any additional information you may need.

Sincerely,

Imed HAMDENE
